EXPERIENCE

- **Oxane Partners**  April 2025 - May 2025
Portfolio Management Intern Hyderabad, India
 - Built **financial models** (margin calculation, commitment fee calculation, re-balancing model) for an **Alternative Investment Fund managing 70+ CLOs**, improving accuracy in portfolio monitoring.
 - Evaluated Collateralized Loan Obligations (**CLOs**), focusing on **tranche structures, cash-flow waterfalls, credit enhancement, and risk-return profiles**.
 - Analyzed **6+ debt securities** (CLOs, CDS, CDOs, CMOs, RMBS), and **securitization structure**, enhancing understanding of structured credit products.
 - Understood calculation of **Borrowing Base** for underlying collateral and how to create and track **concentration limits** for structured credit portfolio.
- **PredictRAM**  Jan 2023 - April 2023
Financial Research Intern Remote
 - Conducted thorough **research and analysis** of various **financial and macro-economic events** such as budget, inflation rate, interest rates and industry analysis etc.
 - Stayed up-to-date with industry trends and developments and analyzing their impact on financial instruments like **stocks, bonds, and currencies**.
 - Wrote detailed **10+ reports and investment strategies** that help clients make informed decisions regarding their financial investment.

PROJECTS

- **Valuation Model: DCF and Multiples Valuation** August 2024
Tools: Excel
 - Prepared a **DCF and Multiples valuation** model for Hero MotoCorp Company, generating **5-year forecasts, WACC calculation** and estimating intrinsic value vs market price to assess investment potential.
 - Delivered detailed financial projections (revenue, expenses, and cash flows) with **<10% variance** from actual, enhancing accuracy of performance evaluation and strategic planning.
- **Pairs Trading Strategy: Quantitative Research** December 2023
Tools: Python
 - Created a **pairs trading strategy** based on **z-score model** and **iv ratio model** using python.
 - Implemented a **medium-frequency strategy** that has a trading horizon ranging between **30 min to 5 days**
 - Compared both the models with the goal of **optimizing the absolute P/L, Sharpe Ratio, draw-down** of the strategy.

SKILLS

- **Technical Skills**: Financial Modeling, Valuation, Research, Quantitative Analysis, Financial Statement Analysis.
- **Soft Skills**: Problem Solving, Analytical skills, Written and Verbal Communication skills.
